SOLUTIONS TO STORMWATER POLLUTION

A GUIDE TO HEALTHY HABITS FOR CLEAN WATER

Stormwater pollution is one of New Jersey's greatest threats to clean and plentiful water. Pollution on streets, parking lots, lawns, and in our parks is washed by rain into storm drains. Fertilizer, oil, pesticides, detergents, pet waste, and grass clippings end up in storm drains too. It then flows directly into our drinking water supplies, the ocean and our lake. We all need to do our part and prevent stormwater pollution. By sharing the responsibility and making small, easy changes in our daily lives, we can keep common pollutants out of stormwater. It all adds up to cleaner water and it saves the high cost of cleaning up once it's dirty.

As part of New Jersey's initiative to keep our water clean and plentiful, and to meet federal requirements, many municipalities and other public agencies including colleges and military bases must adopt ordinances or other rules prohibiting various activities that contribute to stormwater pollution. Breaking these rules can result in fines or other penalties.

West Long Branch residents should know that our Governing Body has already implemented many ordinances and policies in regards to the protection of our water resources. The Borough of West Long Branch and the New Jersey State Department of Environmental Protection recommend the following:

Keep pollution out of storm drains:

- Remember that storm drains are connected to water bodies
- Check your driveway/parking space for motor oil and other automotive fluid stains. Rain and sprinkler runoff will wash pollutants into storm drains.
- Do not let sewage or other wastewater flow into a stormwater system
- Do not drain or backwash your pool in the direction of a storm drain
- Clean your curb line. Garbage, litter, grass clippings, and leaves are washed into storm drains and prevent the proper flow of water

Limit your use of fertilizers and pesticides:

- Do a soil test to see if you need a fertilizer
- Do not apply fertilizer if heavy rain is predicted
- Look into alternatives for pesticides
- If you use fertilizers and pesticides, follow the instructions on the label on how to correctly apply it
- Maintain a small lawn and keep the rest of your property or yard in a natural state with trees and other native vegetation that require little or no fertilizer

Don't feed wildlife:

- Do not feed wildlife such as ducks and geese
- West Long Branch has a law against feeding ducks and geese

Clean up after your pet:

- Use newspaper, bags, or pooper-scoopers to pick up waste
- Never discard pet waste in a storm drain
- West Long Branch has a pooper-scooper law
Mutt Mitts are available in all Borough Parks

Dispose of yard waste properly:

- Keep leaves and grass out of storm drains
- Use grass clippings as compost. Cut it and leave it
- Use a mulching mower that recycles grass clippings into the lawn
- The Monmouth County Landfill **DOES NOT** accept grass clippings or thatch. Do not mix grass clippings or thatch in your garbage or with brush or leaves.

Grass clippings and thatch will not be collected by the Borough.

Don't litter:

- Recycle, Recycle, Recycle! West Long Branch collects recycling curbside weekly. Refer to this calendar for collection dates. Also, the Recycling Center is located at the Public Works building on Monmouth Road and is open daily.
- Participate in community cleanups
- Place litter in trash receptacles
- All Borough parks have garbage cans and recycling containers
- For disposal of any items which our Borough does not collect, contact the **Monmouth County Recycling Office at (732) 683-8686** for information

Properly use and dispose of hazardous products:

- Hazardous products including some household or commercial cleaning products, lawn and garden products, motor oil, antifreeze and paints
- Household chemicals, including paint, can be disposed by calling the **Monmouth County Household Hazardous Waste Facility at (732) 683-8686** for an appointment. This is a **FREE service** to Monmouth County Residents with proper identification.

Control car washing pollutants:

Consider using a commercial car wash that recycles its wash water. Pollutants such as soap, dirt, and oil wash into storm drains as you hose off your vehicle. If you must wash your own vehicle, use non phosphate detergent and rinse where the water will be directed to a grassy area rather than a paved area. The grassy area will absorb the run off and prevent contaminants from entering storm drains.

Each person can make a difference, but as a Community we must continue to work together to make West Long Branch a better, safer, and cleaner place to live.

Please review the following list of what and how to recycle as many changes occur each year:

**NEWSPAPERS, MIXED
PAPER, CARDBOARD
& CHIPBOARD**

Clean, dry newspapers, cardboard, chipboard, glossy papers, magazines, phone books, envelopes, junk mail, gift wrapping paper, free of plastic wrappers, shall be tied with twine or rope, in bundles not to exceed fifty (50) pounds and left at the curb for collection. (See calendar for dates.) Cardboard and chipboard in large amounts must be brought to the Recycling Center.

**GLASS, ALUMINUM
AND TIN CANS**

Aluminum, tin and bi-metal cans and glass bottles and jars used for food or beverages, shall be emptied, rinsed out and placed mixed together in solid open recycling container at curbside for collection. (See calendar for dates)

**POURABLE
PLASTIC BOTTLES
With #1 & #2 LOGO**

Plastic water bottles, milk jugs, soda bottles, juice jugs, and laundry and dish detergent jugs must be rinsed; caps and closures removed and flatten when possible. Any container larger than one gallon size is unacceptable. Items are to be placed curbside for collection with glass, aluminum and tin cans.

**HOUSEHOLD
BATTERIES**

Household batteries (A, AA, AAA, 9 volt, C & D) are NO LONGER RECYCLED. These items may be disposed of with regular household trash. Button cell batteries must still be recycled due to their toxic make-up. Drop off button cell batteries into collection containers located at Borough Clerk's office or Public Works. Rechargeable batteries must also be recycled but are not accepted at the landfill. For information regarding rechargeable batteries go to www.rbrc.org
NO CAR BATTERIES ACCEPTED.

**FLUORESCENT &
